 Susquehanna Railroad  
 Phillipsburg, New Jersey

Old Susquehanna 141 idling prior to pulling a train load of visiting rail fans

The Lehigh Valley S Gaugers "Summer Outing" was spent at the Susquehanna Railroad outside of Phillipsburg, New Jersey.

The New York Susquehanna and Western Railroad [Historical Society] operates the only steam locomotive in the state of New Jersey.

It provides beautiful steam train excursions in historical equipment all year long along the beautiful Delaware River departing from Phillipsburg, N.J. .

The LVSG gang had a wonderful time riding the "BIG" train, having lunch and just plain socializing, the kind that one can only have when cavorting around trains.

LVSG Bert Mahr pointing to the CONRAIL designation of a loaded flat car.

LVSG Barry Mertz pointing to the Pennsylvania Railroad designation on this Flat car.

Nothing like the great smell of a steam
